

Usage statistics and group administration interface

You probably have received a message leading you to your group usage statistics and a group management interface.

- [Usage statistics](#)
- [Group administration interface](#)
- [Live usage report - Commitments](#)

Usage statistics

<https://scitas-data.epfl.ch/stats/scitas/>

Among the files in your directory, you can find the following:

- New files, **since May 1st, 2017:**

You can have one or more of these types of files.

The valid combinations are: *commitment* and *legacy*, *premium* and *legacy*. It is not possible to have *premium* and *commitment* at the same time.

- `commitment_group_MMYy.pdf`
This means that you have made a 4-years commitment with SCITAS. This files contain your usage for **Castor** and **Fidis** only, as the other platforms have been financed via the old financing model.
- `premium_group_MMYy.pdf`
You are running with pay-per-use with no commitment.
- `legacy_group_MMYy.pdf`
These files are for people who have purchased shares/nodes with the old financing model. They contain information on **Bellatrix** and **De neb** only.

- Old files, **until April 30th, 2017:**

- `invoice_group_YYMMDD-YYMMDD.pdf`
These are the old invoices for premium access, which are now called *premium*.
- `shares_group_MMDD.pdf`
These are the old reports for shares, which are now called *legacy*.

Invoices

Invoices will be sent quarterly for the amounts in the following files: invoice, premium, commitment

Group administration interface

The second link in the message you have received will take you to the list of users in your group. More information about the interface can be found [here](#).

Live usage report - Commitments

For the **groups with Commitments** it's possible to look at the live usage:

<https://scitas-data.epfl.ch/live>

It shows an estimate of the current consumption as well as the expected usage based on the Commitment amount for the period it relates to.
